#### 4. FRÖSÖN TO BYDALEN - Experience Christmas in the mountains

The light this time of the year is something special. The sun is up just a few hours each day but the reason we love the winters in the north is for the epic phenomenon *aurora borealis*, the northern lights and the stars that keep us company during the winter long nights. Imagine a clear morning watching the sun slowly rise from our bus window around 09:30 as we drive west to meet a local woman named Ullis. She lives in a small village in the middle of the forest together with her family and a reindeer named Rudolf! In this visit she shares everything she knows about these beautiful animals and part of the visit she invites us to taste and sample specialties for this part of Scandinavia.

We leave this experience with photos and visceral memories of a complete reindeer experience as we continue our drive to the cabins that we will be staying in tonight. It's time to celebrate a genuine traditional Swedish Christmas although it is some weeks early! We start by cutting down our own Christmas tree, cook a traditional meal together and enjoy the feeling of being together in a warm cabin with the dark and cold winter night outside our window.

- Included meals: Breakfast, lunch, dinner
- Driving distance: 1,5 hours

## 5. BYDALEN TO UNDERSÅKER - Meet the Sami people of the area

When the ice melted from the last Ice Age, the humans of the area followed the reindeers north into the area that we now call Sapmi. Sapmi is the collective area of the northern parts of Russia, Finland, Sweden and Norway. In this area, some Sami still make a living on reindeer farming. Today our tour will be taking us into their culture and we will be guided around by Sami people. The tour starts when they pick us up on snowmobiles and take us to the place that they call home.

We will hear stories about how it is to live where the road ends and nature takes over. We learn how it is to live with the slow change of seasons in a barren and harsh climate. We will also be served lunch, most probably traditional reindeer cuisine around an open fire. In the end of the day we will leave the valley of Bydalen and arrive at our hotel in Undersåker.

- Included meals: Breakfast and lunch
- Driving distance: 1,5 hours

We recommend a typical activity for the area, dogsledding. It's a unique experience, setting off and the tranquility sets in, the barking stops and the quiet nature envelopes us. There is a chance to drive your own dogsled and let the dogs guide you through the forests that they call home.

Some other examples of things to do are ice fishing, historical walk and cross-country skiing. You can also shop at all the small shops of Åre filled with traditional handcraft from the area and high-quality outdoor brands that have their roots here.
